0.0 How To...

How To Read Questions - (Published by 06/04/2022)

1.0 Structures

1.1 Loads & Forces

(Published by 03/25/2022)

Dead & Live Loads, Forces

Laws of Equilibrium

Moment

1.1A - Sample Questions (Equilibrium & Moment)

1.1B - Sample Questions Continued (Equilibrium & Moment)

1.1C - Axial Stress & Sample Questions

1.2 Shear & Moment Diagrams

(Published by 03/25/2022)

1.2A - Deformation & Hooke's Law

Stress & Strain

Elasticity & Plasticity

Stress/Strain Diagram

1.2B - Modulus of Elasticity

Ductility & Brittleness

Tension & Compression

Shear & Bending

1.2C - Shear & Moment Diagrams

Sample Questions (Shear & Moment Diagrams)

1.3 Structural Systems & Earthquake Design

1.3A - Published by 04/07/2022

Structural Systems
Shear Wall, Moment Frame and Braced Frame
Tributary Area

1.3B - Published by 05/06/2022

Earthquakes
Inertial Forces and Acceleration
Period & Resonance
Damping
Ductility, Stiffness & Strength
Building System Design Considerations
Re-Entrant Corners
Structural Irregularities
Soft & Weak Story

1.3C - Published by 05/17/2022

Impacts of Earthquakes on Site Assessment
Non-Structural Design Elements Under Seismic Loads

1.4 - Published by 11/11/2022

Overturning Moment
Safety Factor

2.0 Environment & Sustainability

2.1A - Published by 6/9/2022

What is Sustainability
Sustainable Design Objectives
Global Warming & Green House Effect
Renewable Energy Sources
Geothermal Energy Systems
Wind Turbines

2.1B - Published 6/11/2022

The Basics
Embodied Energy
Heat, Sensible Heat, Latent Heat
Heat Flow
Thermal Resistance

R-Value, K-Value, U-Value, C-Value
Thermal Comfort
Psychometric Chart

2.2A - Published by 07/31/2022

Climate
Microclimate
Climate Regions of the US
General Design Strategies for Cold & Hot Climates

2.2B-Pt.1 - Published by 09/26/2022

Altitude /Azimuth Angles
Latitude
Reading Sun-Path Diagrams

2.2B-Pt.2 - Published by 10/04/2022

Daylighting Strategies
Thermal Properties of Windows
Surface Films and Low-E Coating
Window Design Strategies for Better Daylighting
Skylight Design Strategies for Better Daylighting

2.2C - Published by 12/03/2022

Passive Heating Systems

- Direct Gain
- Indirect Gain (Trombe Wall)
- Isolated Gain (Sun Space)
- Thermosiphoning

2.3 - Published by 01/03/2023

Shading

2.4 - Published by 01/28/2023

Passive Cooling

- How Does Air Flow?
- Natural Ventilation
- Stack Effects, Bernoulli Effect, Venturi Tube)
- High-Mass Cooling (Roof Ponds)
- Night Flushing
- Evaporative Cooling
